# DIGITAL MARKETING COURSE OUTCOME REPORT

## Student Learnings

So I joined this course to try a different thing and find out whether I have interest in this field or not and turns out that yes this course made me more apt to take this further. This course helped me build my basic knowledge about various platforms of digital marketing and communications. And also in the meantime I learned through the case studies ma'am used to tell us and also her experiences and how she tackled and got everything on the place.

Thank you ma'am.

This course was one of my best experiences till now. I learnt productive uses of social media platforms. I received a plenty of knowledge about Google ads. I received and gained every minute detail about digital marketing, its process, uses, results, etc. It was very productive and knowledge gaining process. Thank you so much for providing this opportunity.

Marketing is a very important skill to develop for everyone. It helps a person in promoting them and their work which in turn will make them grow their career. The course was amazing and very informative. Ma'am made everything seem so easy and it was so much fun to learn from her. Some of the many topics I learnt from the course are how content is important and how one can write effectively using different tools. Also found out about the target audience, different types of marketing and most importantly how, when and where to run ads. Thank you for the incredible course!!

"Digital Marketing Course" by Anamika ma'am had been very productive to me. The sessions were very interactive and aroused my interest in each and every topic. Marketing had been the field in which I always had an interest but at the same time a career in it seemed oblivious . I am now very much confident about my capability in Digital Marketing and am looking forward for a well-established career in it.
