

KANORIA PG MAHILA MAHAVIDYALAYA, JAIPUR

Department of Chemistry

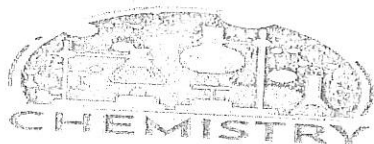

In association with

AMERICAN CHEMICAL SOCIETY

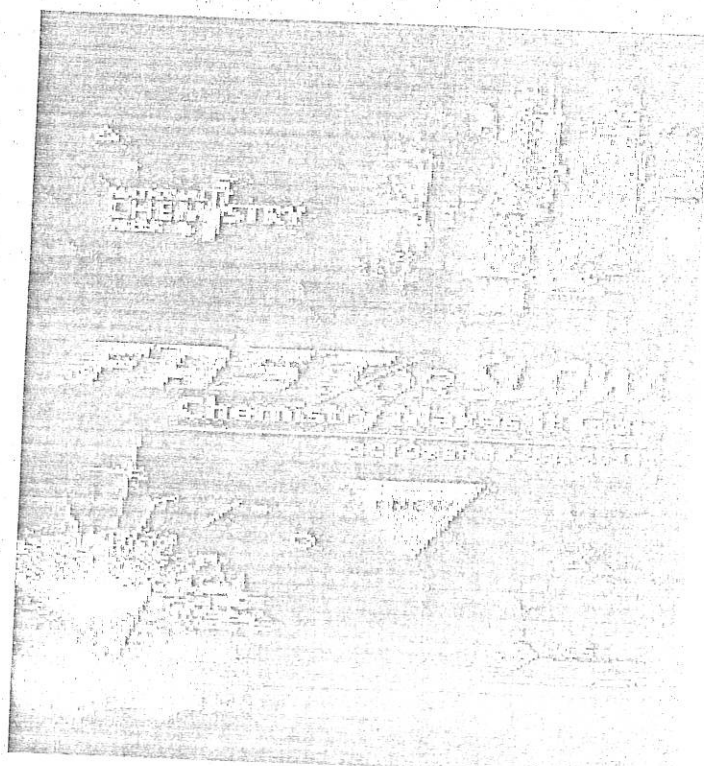

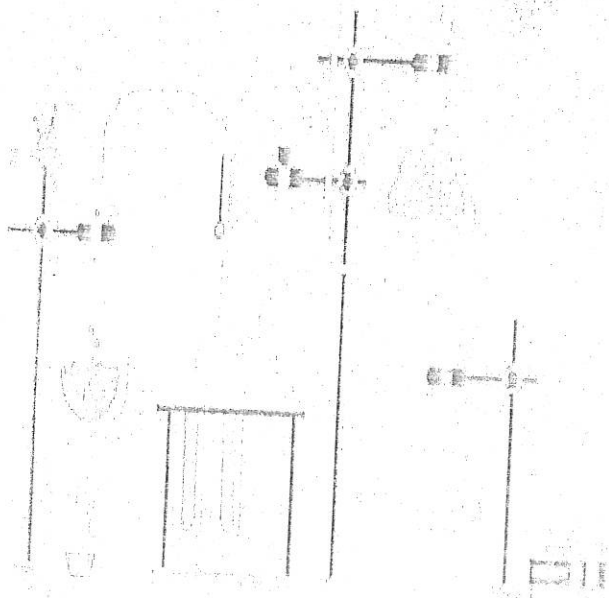

Celebrates

National Chemistry Week

17-23rd October 2021

THEME: FAST OR SLOW.....
CHEMISTRY MAKES IT GO!

Kanoria P.G. Mahila Mahavidyalaya

Department of Chemistry

Report on National Chemistry Week October 20th to 22nd , 2021

The National Chemistry Week, which was hosted at Kanoria PG Mahila Mahavidyalaya in collaboration with chemistry professors and the Association of Chemistry Teachers (ACT), featured speeches on a variety of topics as well as various side events organized by the chemistry department, headed by P.G Head Dr. Kumud Tanwar.

It's a three-day event at the college auditorium from October 20th to 22nd, 2021, with the theme "FAST OR SLOW... Chemistry makes it go!!! " which was planned and structured by MSc students.

The DAY ONE was very good with lots of activities awakening new enthusiasm among the students. Students had a great time and learned a lot starting with the Inaugural, then followed by Poster Exhibition, Short Reels, and Rangoli.

In the inaugural ceremony, the students greeted all of the guests and chief guests. Dr. Seema Aggarwal, the chief guest, addressed the pupils and emphasized the significance of self-study and making notes instead of collecting data. She also highlights the necessity of celebrating festivals and brief events, just like this chemistry week, and helps students understand that this is how we share happiness. Guest of Honors' Dr. Ratna Saxena , HOD Dr. Neeru Razdan gave speeches to the students and motivated them to carry forward the program successfully. Dr. Kumud Tanwar gave a vote of thanks and created a new enthusiasm among the students about The Chemistry Week with her speech.

At 11 am the competitions started with colorful colors of Rangoli, and the students actively displayed their ingenuity by creating Rangoli on chemistry theme. Students used powdered limestone, red ochre, dried rice flour, coloured sand, quartz powder, flower petals, and coloured rocks to make patterns on the floor. Rangoli is an art form that originated in the Indian subcontinent, and when this art is used to create a chemistry-based process, it is a mishmash of

Principal
Kanoria PG Mahila Mahavidyalaya

concept, creativity, and a mastermind. Rangoli judges Dr. Ritu Gupta and Dr. Sarika Kaul were surprised to see such beautiful rangolis and while it was difficult to select the best Rangoli, they declared the winner considering the presentation, concept and neatness. And, by maintaining two students in the lead, they regarded bharti kumari and rakhi as the first winners.

Following Rangoli, a short reels competition was held in which students demonstrated their talent by creating short reels on the theme of chemistry, some by creating a poem on the periodic table, and others by expressing the issues produced by the reactions in their reels. This

Principal

JAIPUR

activity kept everyone amused for a long time. Short Reels Judges Dr. Neetu Mahwar, Dr. Nidhi Gupta and Dr. Neeru Razdan evaluated these fascinating Reels on the basis of their gesture, content and approach with Pooja Kalra coming out on top.

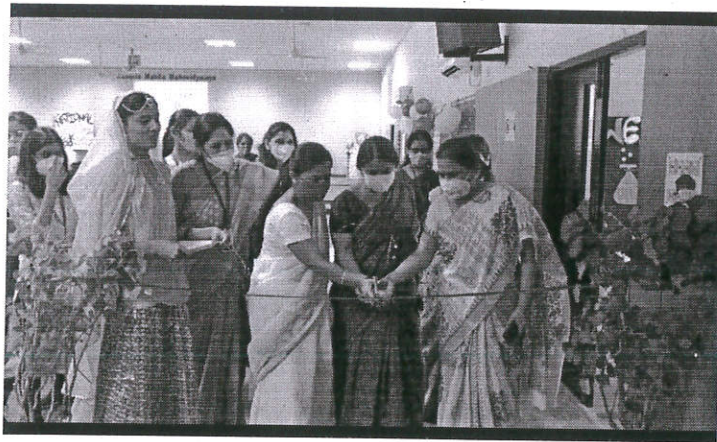

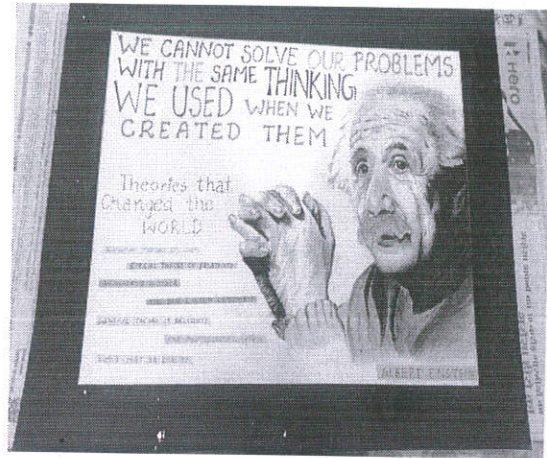

After the short reels competition, the poster competition began at 12 o'clock, in which students created mind-blowing posters, and everyone created fantastic posters by publishing their own ideas. Some students put the skills of sketching in their poster, while some explained the fun concepts of chemistry with vibrant colors. Poster Contest Judges Dr. Ratna Saxena and Dr. Ranjana Agarwal, as well as the entire faculty, praised the posters, and the judges selected the winners based on innovation, presentation, and relevance. Sana Charan and Palak Sharma secured first position and the event concluded at 2 PM.

The activities were excellent; there was a sense of accomplishment and happiness among the winners and participants, and everyone had a great time. This is how the first day of chemistry week went.

Day Two (21st Oct.) commences with organizers and participants brimming with excitement as they await new and exciting activities. The first contest was a model competition that started at

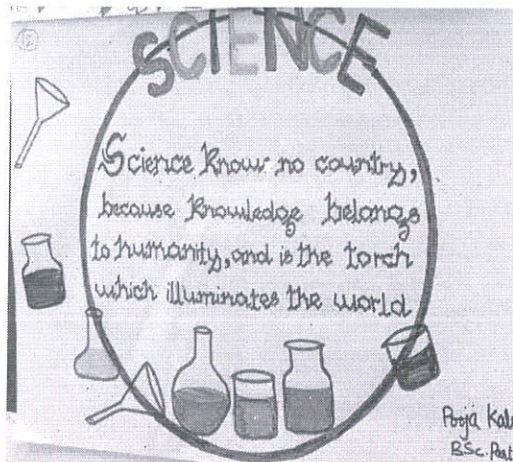

Principal
Kanoria PG Mahila Mahavidyalaya

11 AM. In which the three-person team had to demonstrate working science models, which was quite thrilling. The competitors worked very hard and dedicatedly to create their models, and one team member demonstrated working of their models to the judges. Jury for model competitions were Dr. Neelam Bhageshwari and Dr. Jayanti Goyal evaluates these students' efforts based on their ideas, work, innovation, including the use of their models in future.

The second activity on day two, which began at 12 p.m., was a slogan writing competition, in which participants were given an A3 size sheet and were required to write a slogan in their own creativity using any language, either English or Hindi, within 45 minutes. Students were quite enthusiastic about the slogan writing competition, and virtually all of the contestants finished their ideas on time. Judges Dr. Usha Bhatia and Dr. Sheetabh Sharma evaluate students' slogans based on their content, concepts, and how they convey their beliefs.

Many students were looking forward to the final activity of Day 2 because it was the most anticipated and exciting activity, the quiz competition, which began at 1pm and participants were required to form three-person teams. There will be three levels in total.

On the first level, there was a game called rapid fire in which participants had to keep answering basic science questions and were kicked out from level one as soon as they were stuck and the marks were allotted based on how many questions they answered were correct, incorrect or unanswered. By analyzing the marks of level one it was decided which team is in level two. Moving forward to the next level, there was a round named lucky chit in which one team member had to pick one chit from a basket with a chemistry question written on it and she needed to answer that question in 10 seconds only. The teams who answered correctly reached the last level.

The final stage was a treasure hunt in which students had to identify their destination based on clues related to chemistry found throughout the college campus. This activity was filled with a lot of fun, and the students enjoyed it as well, and had a great experience. Manisha Burdak and her team members reached their goal to become winners.

Day 3 (22nd oct.) The final day of chemistry week , began with a lot of excitement, and the Faculties, Students, Participants, and Coordinators everyone was with a lot of enthusiasm all the way through. The first activity of the day was a Live seminar presentation which began after the arrival of judges at 10:30 AM. In this task, students had to present a seminar on streaming science \ Chemistry topics in a time limit of 4 minutes. A buzzer sounded after 4 minutes, and participants were required to quit. Dr. Sunita Shekhawat and Dr. Jyoti Kapil, the judges of the live seminar, evaluate the participants based on their abilities, gestures, powerpoint presentation, content, topic, confidence, and manner of explanation. Kirti jain and Muskan jain hold the first position in a live seminar contest.

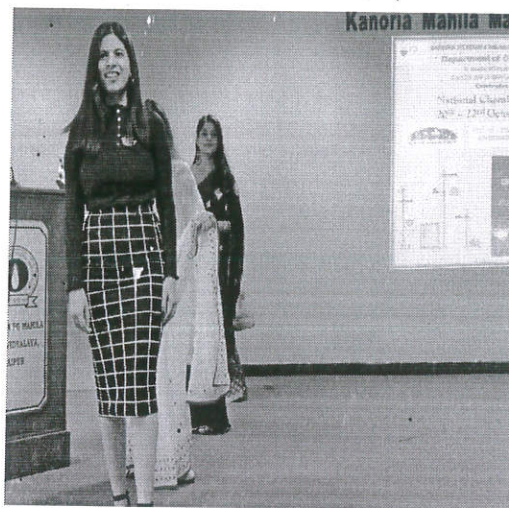

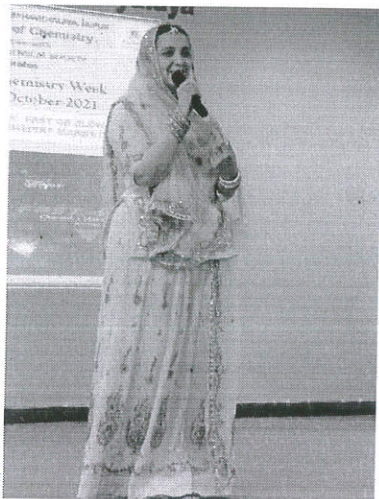

By 11:30, the following contest, JAM (just a minute), begins, in which the contestants must choose one card from a basket over which one topic is written and participants need to speak for one minute on that topic. Just a Minute was a competition in which students' mental acuity was tested and their ability to provide quick replies was demonstrated. JAM's judges Dr. Neeru Razdan, Dr. Himanshi Rastogi, Miss Rishi Dasani judged all the contestants wisely and fairly and declared kirti singh as a winner .

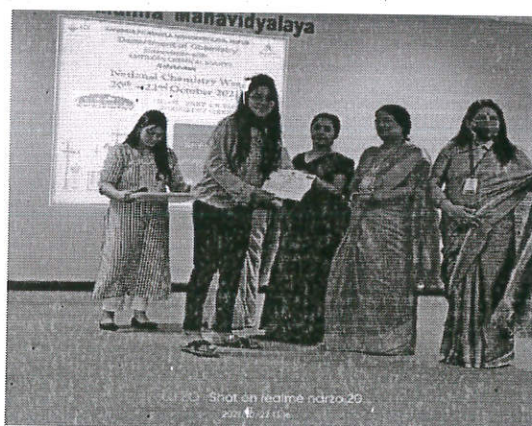

Day 3's most anticipated competition was the Fashion Competition, in which many students competed, and the students were quite excited for this competition. Participants in this competition have one minute to describe themselves and the origin of the fabric they are presenting. The entire auditorium was filled in this fashion show competition and the atmosphere of hooting by the students became absolutely entertaining. Our judges, Dr. Sarla Saxena, Dr. Richa Chaturvedi, Ms. Vijaylaxmi Gupta, and Dr. Deepima Shukla, were very surprised by the variety of costumes worn by the students, making it difficult for them to determine which perspective was best.

After thoroughly comprehending everything, candidate number eight, Mahum Hassain, was awarded first place.

JAIPUR

All of these competitions were successfully completed, and in the end, chemistry students amused everyone with a play and reminded everyone about the positive and negative elements of chemistry, and thus the chemistry week concluded, and the award ceremony was started in the end in which winners received their rewards from guests and faculties and it was a joyous day for all the winners of various competitions.
