49 Rishi Rishi	B.A III year	<u>Rishali</u>
50 Rubali Sankha	B.A III year	<u>Kashika</u>
51 Akanksha Kumari	B.A III year	

“RESIN ART WORKSHOP

In the month of December, the students of the department participated in a one-day workshop on “RESIN ART” conducted on the 21st of December 2021 and 51 students participated. This workshop was coordinated by Dr. Sarika Kaul with the demonstration being given by Ms. Preeti Kaushal and Ms Ritika Kumari. Traditionally, resin was used as a binder for pigment to create colours alongside its usage as a blocker in graphic art. Nowadays, however, resin is used as a medium to create articles, trinkets, and artworks. This new and innovative technique was taught to the students through an engaging workshop that facilitated the creation of various articles like pendants, keychains, coasters, trays, boxes, and photo frames among others. Resin art artwork and utility items have great value and demand in the current market, therefore by learning this technique of art, the students not only have an opportunity to practice and exhibit their talent and creative skills but also take up small business ventures to showcase their talent.
