

Ref. : IPR/NIPAM/2021/0013

Dated: 07/12/2021

Sir / Madam,

Our Nation is commemorating the 75th Anniversary of India's Independence and on this occasion a campaign 'Azadika Amrit Mahotsav' is being run by the Government of India. Under this campaign, all Departments and Ministries will host various activities for a resurgent Aatmanirbhar Bharat.

Our Office has launched the "National Intellectual Property Awareness Mission (NIPAM)", under which a special drive has been initiated to impart awareness and training on intellectual property (IP) to students. We invite your institution/school to avail the benefit of this special drive. Expert resource persons from our Office will take a session. After completion of the session, a **certificate** in the name of participants and your institution will be automatically generated and sent to the emails registered in our system. To register and for more details, you may contact Dr. Jitender Sharma on 9928080361 or jitender.ipo@nic.in or our website www.ipindia.gov.in.

With best regards

Dr. Jitender Sharma

Assistant Controller of Patents & Designs

Kanoria P.G. Mahila Mahavidyalaya

Department of Chemistry

Report on Workshop:

Intellectual Property Rights Awareness and Valuation

Date: 22 December 2021

Venue: Online Platform- Google meet

The workshop on Intellectual Property Rights Awareness Program under the "**National Intellectual Property Awareness Mission (NIPAM)**" was conducted at Kanoria PG Mahila Mahavidyalaya, disseminating the understanding and information on the intellectual property while initiating discussion on the effective ways of generating ideas and brainstorming among students.

Under the campaign "**AZADI KA AMRIT MAHOTSAV**" undertaken by the government of India, the Office of the Controller General of Patents, Designs, and Trademarks launched this program and invited our college to assist in spreading the knowledge and benefits to the students with the eminent resource person, Dr. Jitendra Sharma, Assistant Controller of Patents and Designs, NIPAM Officer, working with the government of India since 2012, and pursued his masters and PhD from the University of Rajasthan where the coordination is facilitated by the Principal Dr. Seema Agarwal, Director Dr. Rashmi Chaturvedi and the PG Head, Dr. Kumud Tanwar.

Purpose of the workshop

Intellectual property rights are crucial for exploiting opportunities and the economic upswing of a sovereign state. While India has a large pool of research and innovation experts and resource facilities, as well as an official position in global patent law, its proficiency and acquaintance in the field are lacking. In the present circumstances, enterprising and strategic intellectual property acquisition is essential. The immunity of intellectual property laws and their commercialization fosters entrepreneurial culture, competitiveness, and marketing capabilities and contributes to citizens' and, inevitably, the nation's growing affluence. This necessitates IPR awareness, which is critical for the burgeoning of intellectual property rights (IPR).

Orator and the participants of the session

Dr. Jitendra Sharma administered the event with his erudition, providing an instructive presentation on intellectual property rights and how relevant it is to be aware of them in various domains. He gave a rundown on intellectual property, including patents, designs, trademarks, GIs, SICL-D, copyrights, trade secrets, and much more, using actual examples such as Sony TV, Coca-Cola, Kota Dorita, Chanderi Fabric, Google Search Algorithm, WD-40, etc. While the students and all the faculty members from the chemistry department at Kanoria College, with the encouragement and assistance of the PG Head, Dr. Kumud Tanwar, and coordinator Dr. Arti Mishra, participated enthusiastically in an hour-long workshop on intellectual property rights.

Areas discussed

In an hour-long session, the following subjects were covered:

- 1 Importance of rights for our property protection.

2 Types of properties.

3 A brief overview of intellectual property.

4 Types of intellectual properties

5 To what it grants protection.

6 Relations between IPR.

7 Importance and significance of IPR.

8 Validity, examples, uniqueness, and use of each right covered.

The onset of the session

The session was started by giving a talk about how to bridge the gap between importance and awareness. He stressed the significance of utilizing IPRs in order to safeguard our assets from being devalued. He provided the participants with an extremely participatory session in which he educated them on these attributes, the rights to their creation, and innovation. He discussed the importance and strength of these IPR laws, as well as their implementation and enforcement in the country, in recruiting foreign investment, and more. He educated the students on patent and copyright protection and infringement, with do's and don'ts to avoid this. He also discussed trademark protection in India, including its various forms of expression, whether registered or not, designs, trade secrets, and (SICL-D) semiconductor integrated circuits layout design, as well as various examples of lawsuits.

He discussed how a single product can be assigned many different IPR rights and the relations between them. Giving an example of the Apple Laptop

LED display-Patent right

The laptop's body-Design right

The Apple Logo-Trademark right

The user manual-Copyright

The layout of the integrated circuit-SICL-D right

Further, he moved on to the importance and significance of these exclusive rights, which are an unsinkable invention, as they protect you and make you unique from others. It can be used to generate revenue through its own use, licensing, franchising, or selling your product.

He briefed about Patent uses, the requirements for obtaining patents, its eligibility to obtain the same, efficacy, prior art concept, validity up to 20 years from filing (nothing like global/international), and various examples of many juveniles possessing so many patents and considered among the youngest patent holders in India, like Saarang Sumesh, Gursimran Singh, Remya Jose, and Hridyansh Singh Bhatia.

He discussed the use of design rights, their application to any article in 2-D or 3-D, their registration, their validity from 10 to 15 years, and so on. Moving on to trademarks and the subjects of trademarks such as taglines, sound marks, and certification marks, he explained every concept with examples such as LG-life's good, MI'm lovin' it, their indefinite validity, etc.

He also discussed the administration of copyright laws, who can access copyrights, their incorporation into automatic rights, the obligation of registration, their validity up to a lifetime of the author plus 60 years, the value in court, as well as examples of its enforcement on literary works, photographs, drawings, films, music, choreography, and sculpture.

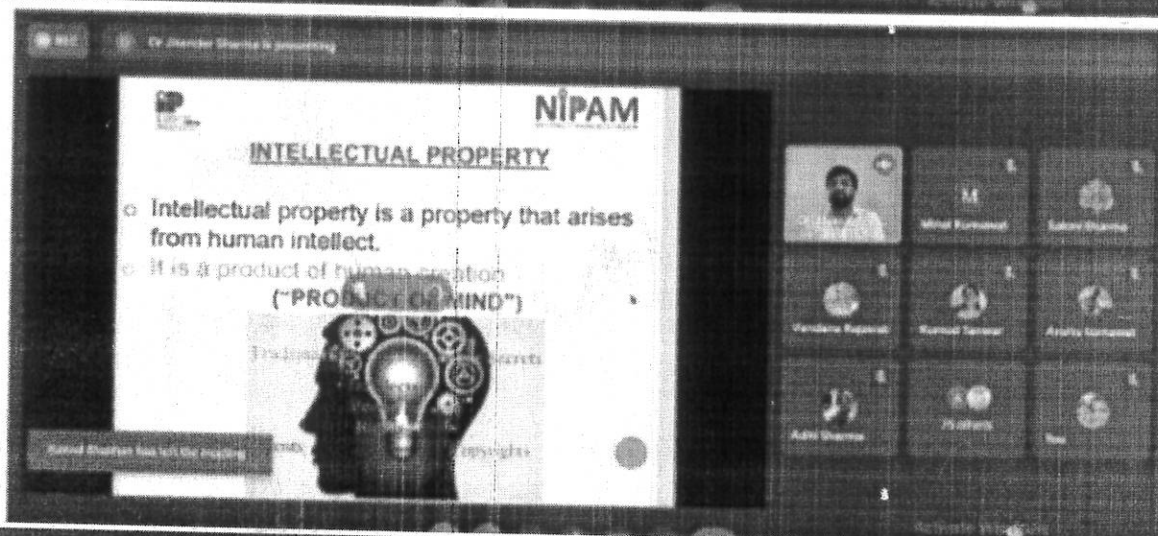

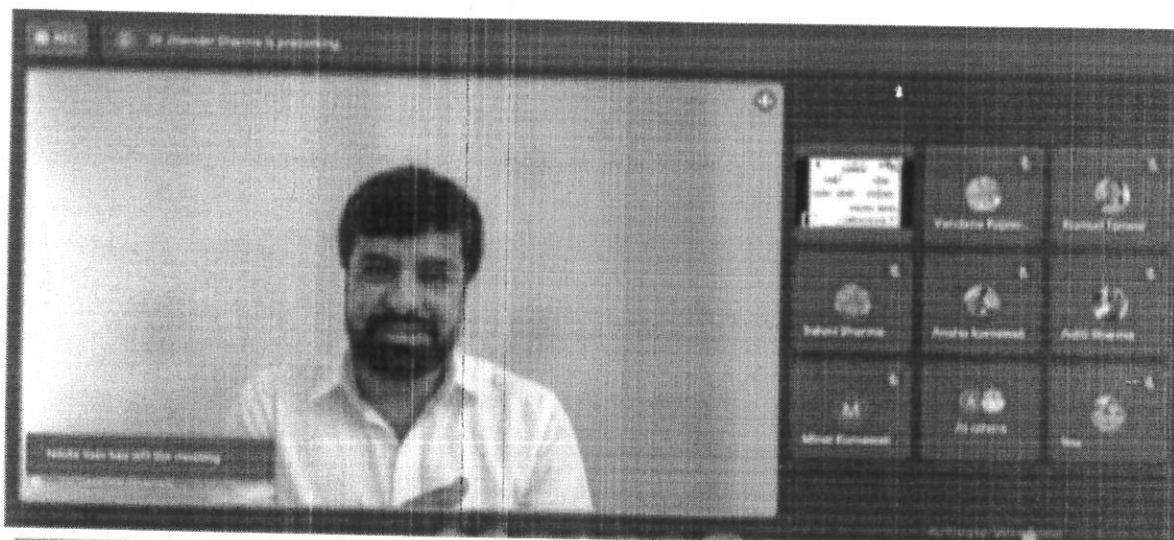

The resource person also spoke about the semiconductor integrated circuits layout designs and their importance, the geographical indications of goods act with examples such as Ambe Mohar rice, Chanderi fabric, Mahabaleshwar strawberry, Tezpur litchi, leather toys of Indore, Lucknow zardozi, Kashmiri saffron from India, and blue pottery, Kota Doria, Bikaneri bhujia, and Sojat Mehendi from Rajasthan. He talked about who can apply for the GIs and their validity being indefinitely subject to renewable.

Further addressed the trade secrets, which is a confidentiality agreement, as well as the territorial nature of the IPR.

The importance of IPR types was stressed to the participants in the final round of the session. Simultaneously, a quiz was performed and questions were debated, which were thought to be really informative and outstanding, creating a vibe among the participants that was greatly appreciated.

Closing of the session

Lastly, the vote of thanks of Dr. Arti Mishra additionally heartened the students and marked the ending note of this edifying session.
