THE SHORTEST SHADOW DAY

THE SHORTEST SHADOW DAY OBSERVED BY STUDENTS OF GEOGRAPHY DEPARTMENT -18 August 2023

The Geography Department students of Kanoria College, Jaipur, observed and document the phenomenon of the shortest shadow day. The primary objective of this activity was to gain a practical understanding of how the Earth's tilt and the position of the Sun affect the length of shadows during different times of the year.

The students executed the observational activity. They selected a specific location within the college campus that had an open area with a clear view of the sky. This ensured that the Sun's movement and its impact on shadows could be observed without obstruction.

On the 18 August 2023, the students arrived at the observation site, armed with necessary equipment such as measuring tapes, protractors, and notebooks. They marked the designated spot where the shadow of a vertical object, such as a pole or a sundial, would fall throughout the day. As the day progressed, the students observed the gradual changes in the length and direction of the shadow cast by the chosen vertical object. They recorded these observations at regular intervals, noting down the time, length of the shadow, and any other relevant data. The students were able to visually witness how the length of the shadow changed over the course of the day.

Outcome -

Through their observations and subsequent analysis, the students were able to deduce that the shortest shadow occurred when the Sun was at its zenith, directly overhead. This point marked solar noon, the time at which the Sun is at its highest point in the sky for the day. The shadows during this time were significantly shorter compared to those earlier or later in the day. The students also discussed how the latitude of Jaipur played a role in the changing length of shadows throughout the year. Due to the city's location, the angle at which sunlight reaches the Earth's surface changes, resulting in varying shadow lengths during different seasons. The observation of the shortest shadow day provided valuable practical insights into the concepts of Earth's tilt, the position of the Sun, and the resultant changes in shadow lengths. The students of Geography Department gained hands-on experience in applying theoretical knowledge to real-world phenomena. This activity not only enhanced their understanding of geographical concepts but also fostered a sense of curiosity and enthusiasm for the subject. This endeavor highlighted the significance of experiential learning in the field of geography and encouraged students to delve deeper into the mysteries of the Earth's natural phenomena.

The Banefoot College, Tilonia

Date - 16/10/23 / 16th October, Monday.

Our college "Kanozia P.G. Mahila Mahavidyalaya" organised a trip to The Banefoot college of Tilonia, Rajasthan. The trip involved 89 students along with 4 teachers. Our departure time was 8:00 AM and we reported at college by 7:30 P.M. There were a lot of things to learn. The people working there were not educated but the knowledge they had was much bigger than a piece of degree. The guide firstly took us to the area (where) things were made out of wood. It atleast took them a lot of efforts to make those things. The things involved toys, frames boxes etc. Then our visit continued and our guide took us to the cloth-making area. The person used "Chartha" to join thread to thread so that he can end up making a piece of cloth. The process cost them ₹100 per meter. Not only this but the cloth making process atleast takes a month to be completed. The way they were talking gave us a brief idea of how much knowledge and experience they hold.

Then we met Mrs. Aarti, a woman who studied till VIIth class only but her fluency in English ~~was~~ just surprised everyone. Then we visited another campus, where we were ~~then~~ taught how the women of the village were given importance to look after everything. The pack making process and much more things. Now the report ~~is not~~ would not be enough to share how amazing it was in all.

Rishita.

Empowering Entrepreneurship: Industrial Visit to Barefoot College, Tilonia

On Monday, 14th October 2023, the Department of Business Administration organized an enriching industrial visit to Barefoot College, Tilonia, with 89 students and 4 teachers in attendance. The visit commenced with a guided tour, where we were introduced to the college's innovative approach to entrepreneurship and skill development.

Our first stop was the woodworking unit, where we witnessed the creation of wooden toys and artifacts. This was followed by an insightful exploration of the college's various initiatives, including solar panel installation, radio station management, and more. What struck us most was the remarkable fact that the individuals behind these impressive projects were illiterate villagers, mostly women, who had been empowered with technical skills through Barefoot College's unique approach.

The visit aimed to train our students in entrepreneurial activities and expose them to the college's pioneering work in promoting rural development and women's empowerment. We were inspired by the college's commitment to harnessing the potential of illiterate villagers and transforming them into skilled entrepreneurs. The visit was a resounding success, leaving us with a deeper understanding of the power of entrepreneurship and skill development in driving positive change."

Report on NATIONAL CHEMISTRY WEEK

Department of Chemistry, Kanoria PG Mahila Mahavidyalaya, organized "National Chemistry Week" (NCW) on 17-18th October 2023. NCW is a public awareness campaign of the American Chemical Society (ACS) that promotes the value of Chemistry in everyday life and this year's theme designated by ACS was "The Healing power of Chemistry". For this two-day celebration, a series of fun activities and competitions were planned around the subject. More than 100 science students actively participated in various activities from both under-graduate and post-graduate courses.

On 17th October (Day 1), "Rangoli making" competition was organized and it was a group activity. There were in total of 20 teams from both B.Sc. and M.Sc. courses, with each having 3 students. Students displayed their talent and creativity by making Rangoli on the fusion of NCW theme and innovation in Chemistry, on the porch. Winners announced for the Rangoli competition were as follows:

Anita Mourya, Dhriti Nagar, Kajal Kumari (B.Sc. Part-III) and Nikita Yadav, Kavita Choudhary, Muskan Yadav (B.Sc. Part-III) bagged 1st position. Seema Mahroliya, Priyanka Mahroliya, Ritu Yadav (B.Sc. Part-II) and Krishna Mishra, Bhawna Mansinghania, Mamal Joshi (M.Sc. Sem-I) bagged 1nd position. Nimisha Jain, Radhika Soni, Ritanshi Vyas (M.Sc. Sem-I) and Kritika Sharma, Mansi Verma, Neha Kausal (B.Sc. Part-III) bagged 1st position.

On 18th October (Day 2), a brain-teasing session of Just-A-Minute (JAM) was planned, where all the participants were given only one minute to speak on a topic, chosen by them from the draw. The winners were selected on the basis of their subject knowledge and spontaneity regarding the topic.

1st Position was bagged by Destini Gandhi (B.Sc. Part-I), 1st Position was bagged by Kirti Singh (B.Sc. Part-III) and 1st Position was bagged by Varshita Taneja (B.Sc. Part-III)

Followed by JAM, a wonderful skit was presented by M.Sc. (Sem III) students which depicted the exceptional beauty of Chemistry. A "Poster session" was arranged where students presented their posters, both hand-made and printed. This session was full of sharing knowledge and having discussions on new dimensions of the subject. It gave students an

opportunity to showcase their creativity and put forward their vision. Posters were judged by the jury members and the winners announced were -

Pooja Gurjar, Priyanshi Yadav (M.Sc. Sem-III) for Ist Position, Anshu Yadav (M.Sc. Sem-III) for IInd Position and Ambika Mehrotra (B.Sc. Part-III) for IIIrd Position.

After the poster session, Dr. Ranjana Agrawal (Vice Principal, Science) shared her views on the vision of NCW and enlightened the students about the importance of Chemistry. Last and the most captivating activity of the day was the "Fancy dress" competition. All the participants dressed themselves around the theme of NCW and the fancy dress cum fashion show was a huge hit event among the audience. The winners selected by the jury were as follows:

Ancna (M.Sc. Sem-I) at Ist Position, Vishakha Garg (M.Sc. Sem-III) for the IInd Position, Anshu Yadav (M.Sc. Sem-III) and Bhawna Prajapati for the IIIrd Position.

To grace the award ceremony and valedictory session of this two-day event, respected Principal madam Dr. Seema Agarwal joined us along with Vice-principal Dr. Ranjana Agarwal. They congratulated and motivated the winners and all the participants.

The event was quite engaging and fun-filled for the students. The feedback from all the participants was very encouraging. Like every year, the management and execution of the event was completely conducted by the students of M.Sc. Chemistry, under the guidance of the faculty. This NCW celebration gave them a chance to come up and work as a team and inculcated a sense of responsibility and learning.

About Kanoria

Kanoria PG Mahila Mahavidyalaya has completed 58 years of its dynamic journey with an aim to educate, emancipate and empower young women. The college exists in the academic environs of Jawahar Lal Nehru Marg established in 1965, by Late Shri Bhagirath Kanoria as the first institution of higher education for women through grant - in - aid from Government of Rajasthan. Moving forward with its luminous journey, the college has emerged as one of the leading institutions not only in Jaipur but also in the State of Rajasthan. With a view to impart education the college not only aims at disseminating knowledge and facts, but also emphasizes on value based holistic development. Earning a prestigious reputation of harnessing a progressive outlook for education, the college has introduced new academic courses at UG and PG levels from time-to-time along with skill development and career-oriented courses. The Department of History was established since the inception of the college at the UG level and PG in history was started from 1993. Department promotes experiential learning among students through activities like workshops, museum and monument visits, heritage walks, screening of historical movies, education tours, guest lectures etc. The department aims to develop student's knowledge and critical thinking skills in this discipline.

Theme

Marriage is a universal institution. It is one of the oldest and the most important institution that has remained critical to the status of women in any given society. The rituals and traditions associated with marriage in Europe and India are completely different. The existence of distinct laws such as Hindu Marriage Law and Sharia Law for acceptance and separation in case of divorce has created several legal complications due to which women are denied justice. The government's aim to create a consistent legal system by implying the consistent Civil Code opens the door for women to have equal rights in marriage. However the road to be taken by implication of the uniform Civil Code is not as easy as it seems. The proposed symposium on 'Women, Marriage and Law' seeks to revisit the institution of marriage through numerous perspectives both European and Indian. The presentations by erudite speakers would cover different areas related to the institution of marriage in European countries and India.

The presentations would be as follows:

Dr. Arundhati Virmani

Institute of Advanced Studies in the Social Sciences
(IASS), Marseille, France
Co-Founder of the Biennale Européenne d'Histoire
Locale

*'The Project for a Uniform Civil
Code: The European Challenge'*

Professor Jean Boutier
