In our endeavour to protect you against counterfeit/fake books we have put a Hologram Sticker on the cover of some of our best selling Titles. The Hologram displays a unique 3-D multi-level, multi colour effect from different angles when properly illuminated under a single source of light. Our hologram have following two levels of flat graphics merged together.

Background artwork seems to be "under" or "behind" the Hologram, giving the illusion of depth unlike a fake hologram which does not give any illusion of depth.
