Students Feedback on Syllabus and its Transaction

2020-21

One thousand seven hundred and eighty students (1780) of Under-Graduate and Post-Graduate programmes from Arts, Science and Commerce participated in an online survey on curriculum followed in the college and its transaction. The feedback received from the students was positive and encouraging.

Is the syllabus well planned and structured?

1,783 responses

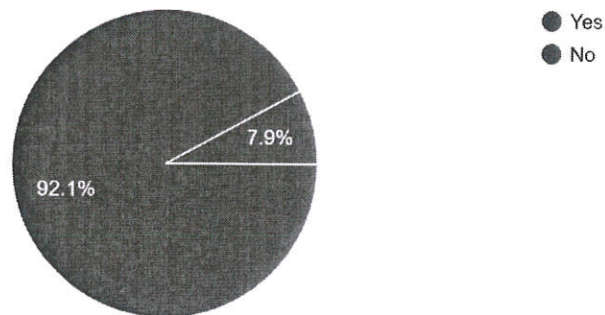

A good percentage of students (96.5%) agreed that the syllabus is well-planned, structured and represents the growing knowledge of the subject. However, few teachers (4%) did not find the syllabus well-planned and structured.

Principal
Kanoria PG Mahila Mahavidyalaya
JAIPUR

Is the syllabus representative of wider knowledge?

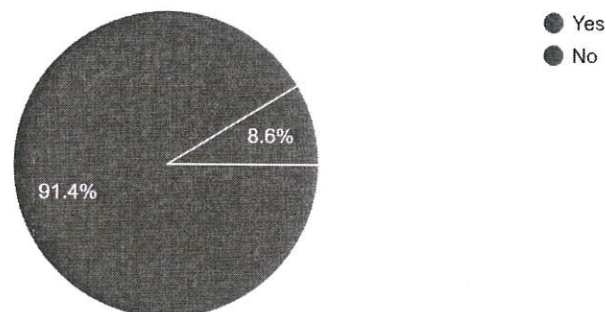

1,783 responses

Ninety-two percent (92.1%) of the students felt that the syllabus is representative of the wider knowledge. It is also helpful in the preparation of competitive exams.

Is the syllabus completed within the scheduled duration?

1,783 responses

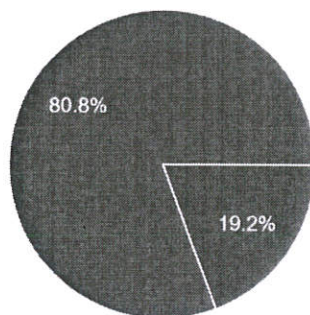

Most of the students (91.4%) responded that the syllabus is successfully completed within the scheduled duration. Only 8.6% students believed that there was some delay in completing the syllabus.

Principal
Kanoria PG Mahila Mahavidyalaya
JAIPUR

Do you suggest any changes in the syllabus?

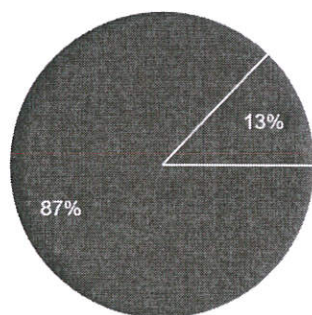

1,783 responses

Only 19.2% students suggested that there should be some change in the syllabus. Though, maximum number of students (80.8%) did not suggest any change in the syllabus.

Does the curriculum fulfill your career objectives?

1,783 responses

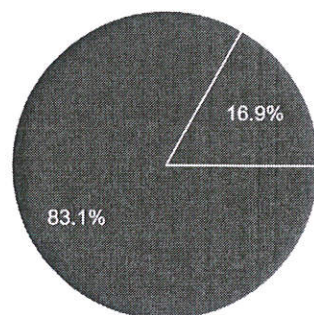

In higher education, the curriculum taught should be such that it helps the students to achieve their career goals. Maximum students (87%) participating in the survey were of the opinion that the present curriculum was helpful in fulfilling their career objectives.

Principal
Kanoria PG Mahila Mahavidyalaya
JAIPUR

Is the curriculum helpful for competitive exams?

1,783 responses

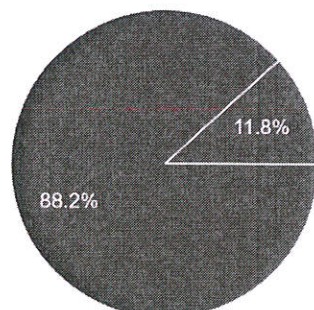

● Yes
● No

Many students at Under-Graduate and Post-Graduate levels prepare for competitive exams. Most of the students (83.1%) participating in the survey responded that the curriculum is relevant and helps them to prepare for various competitive exams.

Does ICT tools support in the learning of subject?

1,783 responses

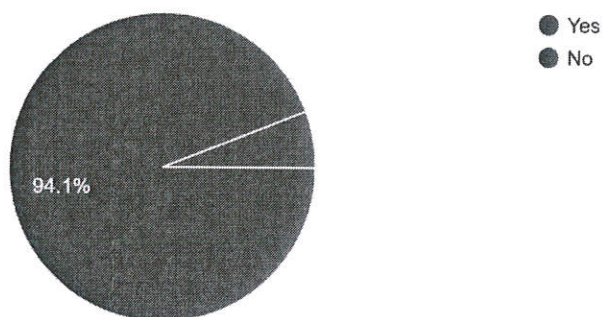

● Yes
● No

Due to the Covid 19 pandemic the classes for the session 2020-21 were through online mode. A very good number of students (88.2%) found that the ICT tools used by the teachers considerably helped them in understanding the topics. The ICT tools not only supported but also enriched the teaching learning process.

Principal
Kanoria PG Mahila Mahavidyalaya
JAIPUR

Do extension lectures and co-curricular activities help in understanding of the subject?

1,783 responses

The extension lectures and co-curricular activities not only expand the knowledge but also adds to the overall personality of the students and boosts their confidence. Maximum number of students (94.1%) agreed that the extension lectures and co-curricular activities organised by the departments also enhance their learning and helps them to understand the topic in a better way.

Action taken report on Students Feedback for review of syllabus

Session 2020-21

In the session 2020-21, due to lockdown imposed by the government during Covid-19 pandemic college shifted teaching to online mode. The following measures were adopted for effective curriculum delivery -

- For conducting the classes smoothly, the college provided Wifi to all the teachers for conducting classes smoothly. Also, college email ids were provided to all the faculty members.
- The college organised Faculty Development Programme 'Know-How of Virtual Learning I' and 'Know-How of Virtual Learning II' to acquaint faculty members for online mode of teaching.
- The college provided cyber room to the faculty members for conducting online classes.
- Students were familiarized with Online Mode of teaching through Introductory video uploaded on the college website 'How to attend online class'
- Students were motivated to attend online classes regularly and to remain connected with their teachers.
- College has also started YouTube channel where videos were uploaded for the students of under graduate and post graduate to provide them easy access to the content and syllabus.
- College has also upgraded G-suite enabling maximum number of students to attend online classes.
- Various departments of the college sent recommendations to Board of Studies, University of Rajasthan to update the syllabus according to the contemporary educational environment.
- Online Extension/Guest lectures, webinars and co-curricular activities organised by the departments and subject associations enriched the learning.
- For internal assessment, teachers were instructed to conduct online quiz, tests, assignment etc. on a regular basis during the session.

If not satisfactory give reason

436 responses

No

No reason

Yes

Network issue

Network issues

Network problem

Satisfactory

Nothing

Satisfactory

Network issues

None

I am satisfied

no

Connectivity issue

Satisfy

Satisfied

Network errors interrupt live classes.

Nothing

Teacher and student are not able to communicate well and sometimes there is network issue also arises and if we keep watching above the small screen of mobile for a long time, it is also harmful to the eyes and there is not such a good level of understanding as in offline classes.

It's new for us so that

Questions not get resolved properly, the network problem is also an issue

There are many people at home, due to which it becomes difficult to concentrate in class

Principal
Kanoria PG Mahila Mahavidyalaya
JAIPUR

- 1) Network issue
- 2) Sometime the app doesn't work properly

Nothing

mam smjne me problem hoti h or jyada word english ke hote h

the bad network issue...i really hate this and we dont have any private room where i study, i have always a fear of rush voices of my house, neighbour too.

I recommend that every teacher should take the live classes.

Technical issues

There are very few live classes.

Because I don't have come email of online classes

Because mere pas koi msg ni aata h

Some videos are not clear

Lack of interaction

The study of chemistry is not going well as mam is sending us the notes in ppt form. So we are not able to understand many of the topics by self...

Becaus hum Hindi medium students h but jyda English use hoti h...plz Hindi mideam students Ka alg group bna do mam.

Internet is so poor these days that live classes are not at all benefitting... requested few teachers to upload ppt with audios but they are not listening

Some network issues.

Sometimes the quality Of voice is not good or low

Becoz the sound of lectures or videos are not clear at all

So much disturbance by the students

I'm satisfied

Lack of interaction due to no live classes, especially for 1st paper of political science (selected political systems).

Techers should keep one fixed time for a whole routine.

Buffering causes distraction

Principal
Kanoria PG Mahila Mahavidyalaya
JAIPUR

every class is not being taken as online live class.

In my case no invitation email for joining online classe came from the college side. Therefore I have had problem in joining.

Because we are not able to understand concept during online class ,We are more comfortable with offline classes because at that time we are directly interact with teacher and easily make our concept clear.

And second other reason that some of us living in rural area and we are facing network issue and due to that we faces many problem like we can't get lecture properly we get buffering in network and that we may lost some important topic

I am here not satisfied because our chemistry faculty didnt take any liveclass and they usually gave us only a ppt or pdf if we are able to read through book only without any help of a teacher then we can't take a admission in collegeand in botany there is only 2 classes are tooked by teacher

I'm not satisfy because of chemistry lectures

I am not satisfied because of chemistry lectures

My political class is too early I m unable to take them
Please change the time to 11:00 am

i cant focus completely because there is no one beside me studying, its so boring to study alone and continuously disturbance created during class by my family members and online class students. there is some technical issue happened sometimes so my focus is not concentrable.

Yes but not More than online classes.

In offline video lectures, we can't solve our doubts.

face network issue sometimes..

All topics cannot be cleared by PPT

We don't ask the question at the right time

Because network problem and no classroom like feeling

I can't understand practical subjects online

They explain in English but I'm the student of Hindi Medium

I am not completely satisfied by the online classes as most of the time there is network problem or there so much noise which is one big disadvantage .

Unable to understand

Teachers explanation is good study material very nice 👍

Network related issues.

Principal
Kanoria PG Mahila Mahavidyalaya
JAIPUR

Because mam bohot acha padhati hai par humko kuch samjh nhi aata

I m not able to connect with teachers as offline teaching

I like offline classes more

Nil

I am satisfy

Video and sound quality of some classes is not good

Many of teachers taking live classes in which hearing and video issue happen

Can't connect live class properly because of the network issue

The network issue is always there in the online classes

The network issue is always there in the online classes.

Hindi medium student should be teach in hindi medium

Sometimes it's so difficult for Hindi medium students . Bcuz kabhi kabhi material Hindi m provide ni hota h to problem ati h and live cls m connectivity prob hone se link tut jata h .so vdo lectures are much better then live classes.

During offline classes interaction was better. Moreover, flowcharts and diagrams were made understood on the board which made it easy to understand.

Because voice is not so much clear.

I am satisfactory

In live class if we miss a point or forget afterwards it is difficult to recall.

network is not properly available

Network issue nd offline is better for understanding all subjects

Missing offline classes

Bcoz classes are not conducted in a regular manner. There is a long gap of days between classes.

Chemistry and botany online classes is not regular. They just send ppt. Which is not sufficient, their must be proper explanation of ppt through online classes, so it will be better to understand.

voice is not clear in some videos

Voice lack problem, network issues, do not proper interaction between us

Dr. Suresh
Principal
Kanoria PG Mahila Mahavidyalaya
JANUR

Study material could be better .

Classes are actually good

lack of instruction

There are more distractions at home, offline teaching mode is more effective

Some topics we can't understand by the online classes sometimes technical errors occur during test time.

We are satisfied only live class because that time we are connected to the Mam directly. Mam explain the topic is very easily.

In Thermodynamics class of Physics content seems like cropped in the online video..it must be corrected soon unable to understand.

No, I have no reason

Chemistry's study is not going well

yes

It is satisfactory only if pdfs and video lectures are being given. We are not able to attend the classes through google meet/zoom because of our data signal issues. Also there is no fixed time for the classes.

OTHER (292)

Very good experience

Yes

Better understanding

Good

Yes

yes

It is much more convenient and no need to travel. Also we can access the content any time that is very student friendly as we can study according to the availability of time.

It's nice way of study...and moreover efforts of teachers are appreciated

Comfortable n regular classes with decipline

Video lectures with teacher's explanation are much easier to make notes of and understand too. Quiz and live lectures are also very helpful in enhancing our study.
Thank u.

During the tum when the while world is suffering from corona this method is very effective to study online

Easy to understand

Teachers teaching method is very goodso it is easy to get the content

We can save the videos to study later

Repeated listening to ppt of video lecture makes good sense

Teachers explains/elaborate the topic very easily and with simple language and also in the videos we can forward or backward the videos

Video lecture are easily accessible and all the teachers are doing well.

I understood all topics very well.

explain

I'm satisfied as geography department is conducting daily quizzes, and I want other departments to do the same

NA

Principal
Kanoria PG Mahila Mahavidyalaya
JAIPUR

As an active and aware youth of this country I'm satisfied from these technical changes coming around us in these times of need. The efforts all are putting is satisfactory as we need to thank you all for making our studies possible in continuation at these times too.

I am satisfied as my college provided classes in this pandemic and some lectures are interactive and interesting but some are little bit of boring

Its really to communicate and adjust with the surrounding as per the crisis that is going on study part affect very seivourly but because of online classes finally studies are regular teachers are working really hard to make us understand the lesson in the most appropriate way

Online classes is better than offline in today's scenario.... students can comfortably do their studies from home in this pandemic situation.

I'm partially satisfy

Explanation is good

I satisfied, because online classes helped us for study and course are also complete at time .

Online classes are very good

Everything is going well, we are enjoying the new experiences

Explain method is perfect

Video lectures are very good and concepts are very well explained by the teachers.I feel and understand concepts just like offline classes.

Yeah ,online classes are satisfactory because we attend these classes at any suitable time.when we need ,we watch recorded videos .pay attentively on videos or live classes more then offline classes .

Easy to understand and less time consuming.

Explination is really good and understandable

Because it saves the time of daily transport

Some classes very well there video and voice quality good.but some classs video is not good.

Yes, I'm satisfy with online video lecturers

I feel comfort in online classes during the covid. In these online classes we can revise our chapter again with the help of our teachers explanation.

Online classes are very interactive which enhances understanding of the concepts being taught and also helps the students in solving queries by communicating with the teachers..

As the teachers are trying their best to make the students understand by live or video lectures & i am able to understand their lectures

Principal
Kanoria PG Mahila Mahavidyalaya
JAIPUR

Concepts are clear very easily.

I can't explain

I am satisfy because teacher 's explain ation is nice and i understand what they taught us.

I m satisfied with online classes because here I can ask teacher to solve my queries and problems

We are satisfied this online classes because our knowledge increase per day everything is teaching best mode

Totally satiesfy with Physics lectures by Dr. Rekha Prajapat, mRs. -Dr. Sarla Sharma mam and Dipti Chauhan Mam.... But i faces somee issues during the Chemistry classes because there is no video provided by by lecturers of Chemistry... Only written pages or BOk Pages are sent by chemistry teachers... There is no video for explanation of that pages..There should be a video to explain what has been written on the notes/pdf... Because too many students have queries which cant be solves only

By written notes. Math's lectures is overall good.

Yes it is satisfactory because to manage such a huge number students
Is a big deal but our teachers and students are soo much cooperative.

Live classes and videos are more effective than PDF

Good enough. As we are wasting our time at home so it is better to attend classes.

Kind of, but personally I liked offline form of teaching

In online classes we get study material through teachers or are able to study personally . We are also safe in online class.

Teachers voice is quiet clear and we could hear them comfortably.

Through online class we are able to get all the study material easily and information of all the assignments as well can be known. And with the help of ppt everything that is explained gets clear simply.

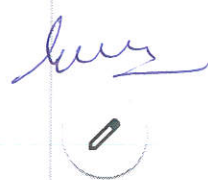

It is satisfactory as all the topics can easily be understand and teachers can share ppt or videos for more effective learning.

I'm satisfied with physics and mathematics lecturer ...their all lectures are good nd satisfied us

Totally satisfied with phyics lectures by Dr.Rekha Parjapat , Mrs.- Dr. Sarla Sharma mam and Dipti Chauhan mam....but i faces some Issues during the chemistry classes because there is no video provided by lecture of chemistry ...

We are provided with lectures at time which enables discipline in us during this time of panademic

I am satisfied because online classes are very good for me and I always learn something to online classes

I m satisfied with Geo classes are they can be attended at any time p

satisfactory if there is some video lectures and some live classes

Those teacher's who take live classes are good. I mean it is easy to communicate and learn.

May be or May not be

In online classes ppt presentation are helpful to understand about the topics.

we get study material as and when topic or a part of unit is completed.. so we can go through it.. quiz are also there to test ourself.. how much i able to understand

At first, I didn't think that I'll be able to understand through online classes but the way the teachers are explaining things through the PDFs, videos, PPT's and live sessions make concepts very easy to understand. And also, I appreciate their patience towards students. Thank you!

Good for students, can ask queries simultaneously

Good initiative taken by my college
Thanku all teachers for helping students..
By giving study material.

It is sufficient for understand

because meterial available for sallybus

Satisfied

Because In this pendemic condition we can not come to college..so nothing is better than online calsses.. thats it

I can hear the topic explanation most of the times by online video lectures which was not done in offline lectures.

Classes are not going on a regular basis for every subject

The video lectures clears the doubts and are easily accessible anytime.

My learning and gaining power has improved.

I appreciate the efforts made by teachers and by the college management who are even working in this pandemic I highly appreciate it

I m totally satisfied with online teaching. Our college live lecture is much better then other school or college online classes.

In this pandemic condition We can not come to college...so nothing is better than online classes

Principal
Kahoria PG Mahila Mahavidyalaya

In offline, class notes are not available...and we don't understand lectures without notes..teachers would explain the lectures by their own notes.but In online, class notes are available with pdf.

but timing not fix and facing the problem and material provide in English please materiel provide in hindi

Teachers are very well explain everything

It is really helpful to study also without books as for those who didn't arrange books still....
Helpful through online classes, ppt, videos etc.

Explanation by teachers are good.

Mam bohot acha padhati hai

It is because of exicllent teachers

I'm satisfied by the way of teaching

Everything is good

Amid covid -19 Teachers are leaving no stone unturned to teach students so what's better than that.

Online live classes is good.

Atleast we are able to study something because of the online classes

We are getting our lectures on time

Teachers explain very well and they solved all the doubts too.

The taechers are very co-operative, and software is also good so we are having a good experience of online clases.

I well understand then offline class

I satisfy because in this covid-19 period ,we can not go outside.
So my college is giving proper education in difficult time.

Vedio lectures which are given by teachers are very much helpful in revising the content

The video lecture which are given by teachers are very much helpful in revising the content.

This type of learning is developing communication skill and teamwork.

Online live classes

Live classes

No changes

No need

Start live classes

No.

Principal

Kanoria PG Mahila Mahavidyalaya
JAIPUR

We would like to change the pattern of taking attendance. As sometimes due to network issues meeting gets disconnected and then we are marked as absent for that class, so we want you to please take attendance through google forms. This will really help us alot. Thank you.

Proper time table

Network issues

No change.

Video lecture

Offline classes

I don't know

Audio

Video quality

Network

..

Please try to use more advanced apps like Zoom for live classes. Also provide pdfs/ppts in offline mode for these live classes.

Nothing...

1. The teacher should use white board or black board in online dress, it makes more sense.
2. I just want the college to open up again soon.

Technical support

Quiz, ppt, live lectures as well as video lectures

Online live classes are good

Yes

Voice quality should be improved in ppt .

Offline classes start ho jaye

Time table should b given

Offline class

Ppt and videos should be provided in respect of live classes

Principal
Kanoria PG Mahila Mahavidyalaya
JAIPUR

I would like to have classes on PPT and video lecture, it makes more sense

Offline classes start plzz

Create accessible content so that everyone can access it.

There is problem with the sound. Voice of teachers are not clear either vibrating or any other issue

Teachers are giving their 100% and if they want to do add something new then they will decide otherwise they are giving their best.

yes mam

Pray for us...i dont want any changes everything is alright. The all problems comes with my side like bad network, noices and all. Teachers are gives best no doubts thankyou

Live classes instead of video lectures.

To provide with more interactive methods for studying

Online video lecture in chemistry department

I want teachers to take live classes and share notes in the form of PDF
And to conduct some weekly activities which enhances our understanding and learning skills

Regularity of live classes to give students a personal touch

The online classes are going good.

Emphasis on live classes

Sent me email of online classes

The only change I would recommend is to divide the students in more possible numbers of group as due to lack of development in our technical resources everywhere causes lots of people the discomfort at times of attending the class when the number of students is high in any of the class say more than 100 students in a class not only create technical problem for us in fact the teachers also face time and management issues. So, better create groups of a decent quantity of students for online classes like offline classes in the college.

College should conduct live classes

More of notes

Classes timing should be adjust properly as sometime two classes clash with one another

There is no particular timing for a particular subject. It will not be a big problem if teachers would have shared the details (including time of when they are going to take live classes) a day before live classes. We were facing another problem like teachers change times for tests or live classes according to their convinience (first they say we will have class on 1:00 p.m. then they say after some hours that test will be held soon then they share link for test and that too expires too soon and because the changes made are too sudden sometimes we didn't

Principal
Kansli PG Mahila Mahavidyalaya
JAIPUR

checked the mail because of some urgent work)... All I want to say here is ma'am pls share details a day before of live classes and tests whose link will disappear quickly ...It's inconvenient for us to look all the time in phone and check mails...thank you..

Everything is going ok nothing to improve but what about library

There should be more interaction between teacher and student
So that we can clear our doubts

Connecting problem should be checked, and teachers are requested to kindly share the pdf also...

Video quality must be clear and voice also

Give assignment for all subjects in a weekend.

Proper notes should be given
Videos should be more interactive

Online live classes are much better than lectures and request to provide the PDF of these classes for preparing notes

It's perfect

Video and audio quality should be improved

No changes recommended

Video quality should be improved

More videos are preferable.

Weekly assignment and test should be included in google classroom.

After the chapter is complete, teacher must give rest to complete the notes what they teach because it's not easy to complete three subjects' notes in a day.

Mam should take online video lectures in chemistry...

I think maths classes should be live because most of the students can't explain their problems and can't understand the concepts and questions.

No sb thinks

Video lectures for all topics should be made available because sometimes when we study through pdf and written material it gets a little complicated to understand some points.

Please request teachers to upload ppt with audios, me and many of my friends don't understand anything in live classes due to improper resource

Video quality should improve

Send PPT in PPT form instead of PDF. And keep PDF as PDF.

Principal
Kanoria PG Mahila Mahavidyalaya
JAIPUR

Improve in voice quality

The classss time table do fix.and chemistry subject also send videos.

Online video lecturers

Satisfied

Improvement in accessing the Google Forms which cause a problem for the students as many a times we fail to access the concerned form due to privacy concerns.

Online tests

Can't

Only sound issue

I recommend to provide some extra material like pdf of questions, explanation of important topic , notes of chapter or chapters also so that we go through the chapter completely and gets enough knowlegde .

We have many queries which we want solve at that time when we were watching video

Sometimes there a problems occurred during attendence and assignment because when we open to do assignment we can't open it because of request access problem.
