

Kanoria PG Mahila Mahavidyalaya, Jaipur

Parent-Teacher Meeting

2nd November, 2019

The future can sometimes provide an extremely uncertain ride, but having a solid career plan can serve as a reliable roadmap for the students wherever they would like to go. This is possible only with the joint efforts of parents and teachers and to keep pace with the requirements of contemporary scenario, the college organised a Parent-Teacher Meeting on 2nd November, 2019 to have an interaction about the progress and development of students, analyse the input of college and work on the promising areas for best results.

A team of experienced and passionate teachers was selected from all the three streams i.e. Science, Arts and Commerce to interact with parents about their wards academic and holistic development. Issues related to performance, attendance, class tests, syllabus covered, participation in extracurricular activities etc. were discussed besides the regular issues. Teachers also counselled parents about the stress among students and ways to cope with that, talked about the hazardous use of mobile phone and how its use can be minimised. Teachers also highlighted the areas of interest of students, motivated weaker students to participate in extracurricular activities and suggested them ways to improve their weaker points. Faculty also answered to the parents' query regarding future plans and studies. Parents were accompanied by their wards in the meeting which added more enthusiasm. Some of them also met the subject teachers to receive the first hand information about the students behaviour in class and with other students.

The Kanoria PG Mahila Mahavidyalaya, Jaipur dedicated to women's education from last 54 years constantly endeavours to achieve new heights and fulfil its mission and vision. To truly analyse the college performance, an effective mechanism of obtaining feedback from parents has been developed by the college. The feedback forms were also filled by the parents and statistical

analysis was done accordingly on different parameters. On the basis of the data, college is able to identify the satisfaction level of parents and issues where college must focus to achieve desired aim.

The mentioned areas were raised through the feedback form:

- The college needs to be sensitive to the needs of differently abled and disadvantaged students
- To bridge the knowledge gap, a well organised system of remedial classes for under graduate courses
- Remedial classes for slow learners
- Parents should be intimated about their wards performance in the classes regularly
- SMS updates regarding attendance of the students on monthly basis
- Medical Facility
- Reading room for students
- Library Hours should be increased
- More ICT classrooms
- Focus on skill development programmes
- Value added courses to ensure holistic development
- Need assessment and counselling, better career options must be highlighted
- Sensitizing students to research
- Security arrangements
- Uniform for students
- Students Mentoring
- Coaching classes for competitive exams
- Financial Aid to students
- Students Advisory committee

The teachers' committee involved in the dialogue with parents also inferred that college concern towards security of girls, regular class tests,

Guest Lectures, Extension Lectures, Workshops, Seminars, Field Visits, Extracurricular Activities, Social Activism of Students, Bearing Social Responsibility towards Society through NSS, Mentoring Sessions, Students Union Election, Career Counselling etc. were highly appreciated by the parents. The union of two provided an opportunity to do **SWOC analysis** and systematically review the performance of students, teachers and college management as well.

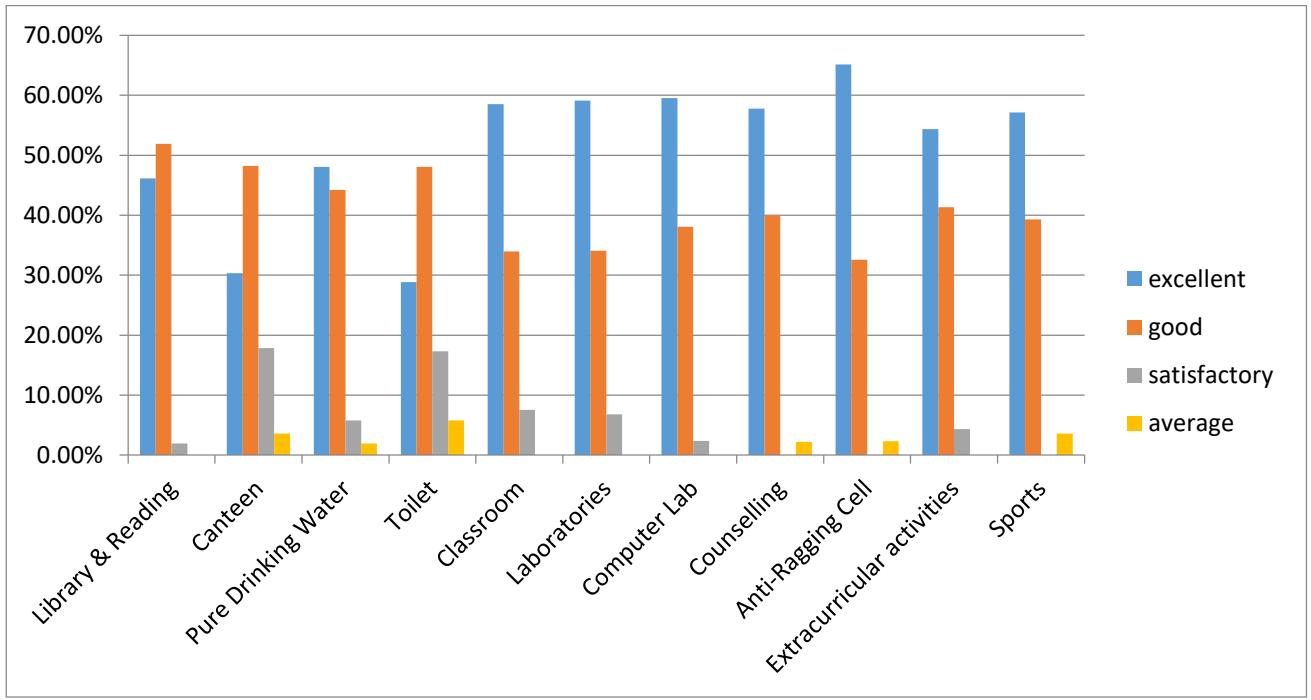

An SWOC analysis has been done. On the basis of the information received through interaction and feedback forms, the results is:

- S** The College carries a legacy and has been successful in maintaining it.
- W** Few infrastructure improvements are required according to the contemporary scenario.
- O** Interface with young Academicians, Writers, administrators, eminent Dancers and singers, Business women gives an opportunity for self-introspection.
- C** College has its own vision and mission and has worked on set principles and tries to cop up with the new generation demands.

Parent-Teachers Meet held on 2nd November, 2019 was a great success and fruitful both for the parents and teachers.

average	2.17%	0.00%	0.00%	3.23%	0.00%	0.00%

The statistical analysis clearly revealed that the parents and students were extremely satisfied with the performance of the college and the facilities provided especially in context to library, classroom, anti-ragging cell, laboratories, counselling, remedial teaching, computer lab, availability of pure drinking water, sports and extra curriculum activities. However, they showed concern about the improvement of canteen and toilet facilities.

So by analysis, we can conclude that students are highly contented with the college on all the above parameters. They consider all the facilities as excellent or good.
