

Parents Teachers Meet

11th December, 2021

Parents-Teachers meeting held on 11 December 2021 in the college co-ordinated by Dean Student's affairs Committee for the students of UG and PG.

Main objective of PTM was to interact with the Parents regarding academic and non- academic activities. Assigned teachers discuss with parents about student's performance in a constructive way. The main focus was to encourage the active student participation in academic and extra-curricular activities to polish their skills, knowledge and abilities.

Parents participated in PTM enthusiastically. The key concern of parents was to seek the performance of their wards. They were discussing about the issues which students are facing in attending online classes. Sanitary hygiene was also a major concern. Parents were requested to ensure that their ward would regularly attend online classes and go through the study material posted by the teachers on online platform on a regular basis.

The objective of PTM has been fulfilled by redressing their issues in a positive manner. They were assured that in case of any network issues faced by their wards, they can contact the concerned teacher for clearing their doubts and can also referred to the study material that is to be sent to support the topic covered in online classes. Efforts have been initiated in support of maintaining sanitary hygiene.

Overall, parents were very encouraging and supportive. They were extremely appreciative of the efforts taken by the management for conducting PTM. They also appreciated the opportunities of the various activities and competitions being offered by the college to groom and polish the overall personality of the students. PTM concluded successfully with positive feedback of parents with a promise of doing collaborative efforts for the nourishment and progress of students. Feedback forms were also statistically analysed.

On evaluating the Feedback responses of parents filled during Parents-Teachers Meet, graphical analysis revealed that parents were very much satisfied regarding classroom performance (Offline and online) and other infrastructure facilities provided by the college. Rating for almost all the parameters fell in the range of "Excellent" to "Good" for all the streams (Arts, Commerce, Science, BBA, BCA) for the session 2021-2022.
